POLE SNAPPED OFF

City Ash Cart Slipped on York Avenue and Trouble Followed.

Wednesday morning about 9 o'clock an ash cart driven by George E. Swanton, who was trying to make the hill on York avenue near Ripley Hill, began to slide and crashing into an electric pole, snapped off, tearing down the light wires. The accident was caused by the loy condition of the street. Driver Swanton was standing in the cart when the pole fell strewing the wires about him and frightening the horses causing them to run, dragging the broken pole with them. The city barn and the Gas & Electric company were notified of the accident by telephone. The lineman's auto responded to the call and made temporary repairs. Their machine got up the hill all right, but it was feared that it would slide going down and thus cause more trouble. A rope fall was arranged and the machine was let down the hill, reaching the bottom in sabity. Temporary arrangements were made for lighting the avenue and a new pole will be erected later. a conspicuous success in banking, but in the political field, in a social way, and in religious life he has taken a prominent part in affairs of Norwich and the state. He was born in East Killingly, the son of Norris G. and Eliza M. Leffingwell Lippitt, and was 10 years old when his parents moved to Norwich. He was a student at the Norwich Free Academy and graduating there, he went to Wesleyan university, where he received his B. A. in 1884. In October of that year he took his first position, that of clerk in charge of the stock book in the Thames National bank, of which Charles Bard was then the cashier. While he was there the capital stock of the bank was raised from \$500.000 to \$1,000.000, not however, primarily because of his presence there. On January 1, 1885, he took a clerkship with the Norwich Savings society, when Charles Townsend was then the president, and Benjamin Huntington secretary and treasurer. Mr. Lippitt rose from one position to another until in 1878 he succeeded Mr. Huntington as secretary
